Parents/Guardians of Seagraves ISD Students,

We are having some serious and ongoing illnesses in our district at this time. It is imperative that the following rules be followed by all who have students in Seagraves ISD:

- (1.) If a student has a temperature of 100⁰ or higher, student should not be sent to school. If the onset of temperature is during the school day, the student will be sent home if it is 100⁰ or above.
- (2.) Student must be temperature-free for at least 24 hours without use of fever-reducing medications (this includes Tylenol, baby aspirin, etc.) before returning to school.
- (3.) Do your part to educate your child about staying well. They should be washing their hands frequently, coughing into their elbow, and refraining from eating or drinking after anyone else. We are working extremely hard at school to make sure everyone understands how to stay well!

We need your cooperation to prevent and get rid of the serious illnesses in our school system at this time. Please understand and follow the above rules. If you have any questions or comments, please feel free to contact me.

Jennifer Floyd

Seagraves ISD Health Care Provider
